Program Evaluations

**"Are Your Programs Evidenced
Based, Do They Work and Are They
Fundable"**

Reasons for Priority on Implementing Outcomes-Based Evaluation

There are decreasing funds for nonprofits
Yet there are increasing community needs
Thus, there is more focus on whether nonprofit programs are
really making a difference and outcomes evaluation focuses on
whether programs are really making a difference for clients
Previous evaluation measures were on, for example, how much
money spent, number of people served and on client satisfaction -
- these measures don't really assess impacts on clients
Outcomes evaluation looks at impacts/benefits to clients during
and after participation in your programs
